TESTIMONIAL

" MicroSurvey CAD meets the main criteria that I, and I think most surveyors, are looking for. This is one of the most user friendly applications that I have seen in nearly thirty years of using computers!

A DESKTOP SURVEY AND DESIGN PROGRAM CREATED FOR
SURVEYORS, CONTRACTORS, AND ENGINEERS

The Value of
Intellicad

With the IntelliCAD engine, customizable interface, scripting and programming capabilities of MicroSurvey CAD set it apart in the market and make it more comparable to full AutoCAD based products.

A Powerful
Point Cloud Engine

The Ultimate and Studio editions contains a powerful point cloud engine that is highly optimized for viewing and working with large data sets.

Active
Drawing Technology

MicroSurvey's active drawing technology is an efficient way to work with your survey data. It enables verification, editing, printing and maniupulation of data in the drawing, in the coordinate and traverse database, and during COGO calculations.

Complete
Site Design

MicroSurvey CAD's road design wizard makes creating a 3D road along a horizontal and vertical alignment a snap. Creating templates is easy with our graphical template editor.

DTM Contouring
Volumes

MicroSurvey CAD creates surface models at lighting speed. With very fast modeling engines, you can manipulate surfaces by adding or removing points, work with breaklines, and create boundaries.

Precise
Survey Calculations

MicroSurvey CAD has the simplest, most productive COGO entry inside a CAD system. Record all of your COGO entries automatically with our Batch system.
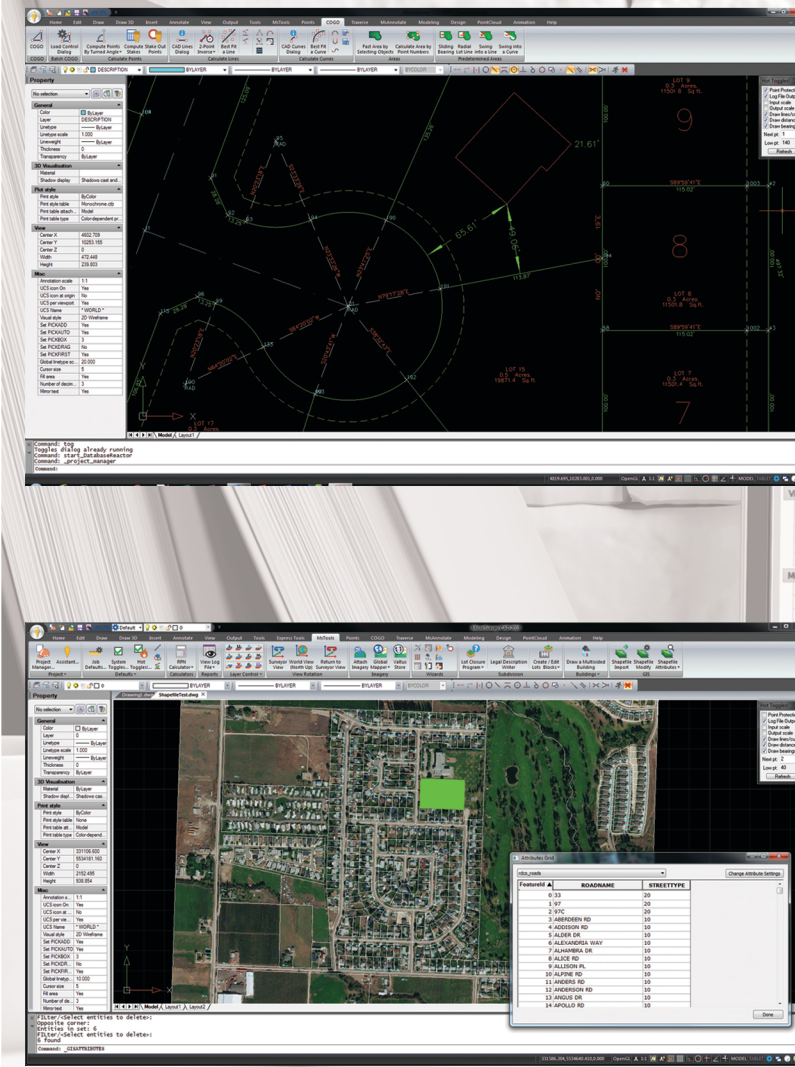

Smart
Information

Smart objects: lines, points, curves and test. Pick and edit objects automatically without initiating a command. Browse the entire coordinate database by simple picking any point in your drawing.

Import
Data

Import and export data files from all main manufacturers.

MicroSurvey CAD sets the standard when is comes to reliable, affordable CAD desktop survey software and has been the MicroSurvey flagship product since 1985.
